Methodology

- Population

Firms listed on 73 Edvido global city pages (any category) whose public directory profile lists Artificial Intelligence as a service line, collected from the public listing API on 2026-10-21. Edvido has no separate city pages for AI development companies.
- De-duplication

One record per firm (by website, else name); a firm listed in several cities or categories is counted once.
- Price field

Minimum project size as published in the firm's public B2B directory profile (such as Clutch and Sortlist), in USD (e.g. "\$5,000+"). Firms without a published minimum are excluded from price statistics.
- Country

Country of the Edvido city page the firm is listed on.
- Minimum sample

Countries, regions and team-size groups with fewer than 20 firms publishing a minimum are not shown; city rows need at least 10 and are small samples.
- Median

Median of the published minimum project sizes (band lower bounds).
